PAST PERFORMANCE: Since its inception in 1957, Rovazzini Electric has been building quality electrical projects throughout California. We offer pre-construction services, hard bid, design build, negotiated contracts, and fee based work. Our approach to serving the customer ensures that your project will be completed on time every time. All while conforming within budget, and meeting the highest level of safety standards. We are often called upon by General Contractors for large scale projects where specialty electrical contractors are needed.

SAFETY

Safety is of utmost importance at Rovazzini Electric. Our teams are Safety Certified and they meet regularly to review safety protocols and procedures with each new workspace. Practicing safe behaviors is a significant part of the daily conversations we have with workers. They undergo regular training sessions and all of our personnel take safety very seriously. It's an expectation and a culture at Rovazzini and it's reflected in our EMR.

Rovazzini Electric consistently trains its employees to ensure the safest and highest quality of work. Through proper training and regular protocols and work practices, we are able to provide consistently safe work environments to make sure our workers finish each day and make their way home safely. It's just how we like to do business.
